

INDMEX Aviation Expands Operations to New Headquarters

Expands and Relocates operations to New Headquarters in Herndon, VA

Herndon, VA – August 5, 2013 - INDMEX Aviation, a fast growing provider of applications to Airports and Air Navigation Service Providers (ANSP) worldwide, today announced the relocation and expansion of its Global Headquarters to its new facility in Herndon, Virginia.

“As the industry looks for new and innovative ways to address the growing demands of air travelers, INDMEX Aviation is positioned to provide exciting new technologies to support our customers with cost effective solutions for the safety of passengers, employees and assets,” said Carlos Nevarez, INDMEX CEO and Founder. “We are thrilled to add additional capabilities in a location that is convenient to our clients, visitors and staff and we are confident that such a move will be the first of many as we increase our global presence.”

Conveniently located in Herndon, VA, the new Headquarters is located minutes from Washington Dulles International Airport and in the heart of the Dulles Technology Corridor. In addition, out-of-town visitors have a wide selection of lodging and restaurant venues from which to choose from when visiting our offices.
